

Assistant Coaches Policy

Purpose:

The Rideau Skating Club (the “Club”) undertakes to ensure that all Club staff coaches are instructing the maximum number of students. This policy is intended to serve as a guideline to ensure this is happening.

General Principles:

1. Coaches accept students to teach until they are at capacity in terms of number of students they can teach.
2. Once the coach is at capacity, and there are additional skaters asking for teaching, the coaches should approach the other staff coaches to see if they have capacity to take the student, and then ask the student/parent if they are willing to have lessons from this coach.
3. If there are no other coaches to teach the student, or if the student/parent does not want lessons from the coach with availability, then the original coach can subcontract a non Club coach to teach the student.

This policy is intended to be a guideline for assistant coaches.
